A vision becomes
reality

THE GE PASSPORT™ IS BUSINESS AVIATION'S FIRST TRULY INTEGRATED PROPULSION SYSTEM

Nexcelle's engine nacelle provides key contributions to Passport's optimized aerodynamics, cost-efficient operation and enhanced maintainability.

With deliveries of Passport nacelles now underway, Nexcelle leverages the collective strengths of its parent companies – Aircelle of the Safran group, and GE Aviation's MRAS – in supplying truly integrated engine products that provide exceptional results.
